THE PROMISE

IXAGON

the global index.

Measuring the world's sporting power, continuously.

THE METHOD

Two indices, one scientific method.

CSI

CATEGORY STRENGTH INDEX

Each sport's weight is calculated by 6 sourced and weighted indicators:

I1	*Olympic status*	30%
I2	*Universality*	25%
I3	*World Championship history*	15%
I4	*TV audience*	15%
I5	*Registered athletes*	10%
I6	*Broadcasting rights*	5%

PRI

PROPORTIONAL REALLOCATION INDEX

A points budget per discipline, strictly balanced men / women.

$$J = 500 \times CSI^2 / \sqrt{N}$$

Gold 50% · Silver 30% · Bronze 20%

modulated by context (Olympics x1.25 · WC x1.00)
